PROUDLY MADE IN THE
USA

OceanAire has proudly manufactured portable air conditioners and heat pumps in the United States of America since 1997.

We are the only U.S. manufacturer of portable air conditioning and heating units in all voltages and phases 1-5 tons. Over 90% of all components are also made in the U.S.A.

At OceanAire, we want to be your first choice in portable heating and cooling. Since 1997, OceanAire has garnered the admiration of our partners and competitors alike, with the design and manufacture of portable air conditioner units and heat pumps that are truly in a class of their own.

Our industry leading commercial grade products offer superior performance and durability that is unrivaled. The functionality of our products is only overshadowed by the continuing innovation and design of new and exciting products by our renowned team of designers.

PROVIDING A BETTER CLIMATE ANYWHERE.
